What do you love the most about driving sport?

Aleksander: What I enjoy most about this sport is the excitement, emotions and adrenaline. Ferro and I compete as a team and I know he will always give his best for me because he is incredibly brave and ambitious. We have built a very strong partnership and that relationship means a lot to me.

What does being part of Youth Polish Driving Team mean to you?

Aleksander: As an athlete, I am very proud to be a member of the Polish National Team and to represent Poland on the international stage. It's a great team with huge potential. We can achieve a lot together because we are united above all by our passion for the sport. I believe that we all make dream team.

What motivates you every day to train and improve?

Aleksander: To keep daily training enjoyable, we always try to make it different. If something is not working in the dressage arena, we go for a hack or do ridden work outside so that training never becomes monotonous. Over time the dressage elements start to come together naturally and that progress motivates us to keep improving.
