When I was seven years old I competed in my first amateur competition and since then driving has become my greatest passion. Besides equestrian sports I also enjoy football and handball. Sport teaches me responsibility and brings me great joy every day.

Franciszek: What I love most is working with horses and the excitement that comes with competitions. Every round is unique and brings me a lot of satisfaction and enjoyment.

What does being part of the Polish Youth Driving Team mean to you?

What inspires you to keep training and improving every day?

Franciszek: My horses are my biggest motivation along with the desire to achieve better and better results and to pursue further success in driving.
